Often, it is not faced with a book by an Indian author, with a sequence. It is even rarer when the sequence mentioned may be better than its predecessor. Tripathi once again investigates Indian mythology and revolves a fascinating story around many of the names heard in tales told in the knees of our avrah, portraying them as mere mortals. The synopsis of the book offers enough indicate enough, and then some, that Shiva's plan may not be so fancil to execute. Desire of him, and ours, by answers, takes him all over this book, with the city in focus being Kashi. I will give the book this, the author has a good command about the story and does not let it be something or another always in progress. Full of secrets, shocks and betrayal, this book is a nonsense van from the use. The revelation of Naga's identity was shocking to say the mother. I saw this coming, guys! The "secret" of nagas, however, was something I suspected a long time ago, so I was not impressed by the "cliff hanger." As for this master pilot, I think it is (see spoiler) [bhrigu (hide spoiler)]. A suspicious character, if there was ever one! But the book is also perfect. Many questions are raised and never approached again, or explained properly. "Sati has annoyed me a little in this book. I don't know about you, but I wouldn't be okay to leave my 6-month-old son and go out to fight lions or plan a break-in, because I'm wondering what the King of Kashi is doing when he mysteriously disappears into his palace from time to time (BOUNDARIES, woman!). Anamayi, however, was a pleasure to read about him. I couldn't help but smile every time that sullen and naughty girl entered the page! The author often uses history to express his opinion on many issues such as Karma, optics, consequentialism, and the balance between Good and Evil. Although it is clearly meant to make you think, sometimes it gets a little too much. What I also found shocking was the use of certain words/phrases that didn't match the time the book was set. I understand that these people know about "radio waves" and "accumulating machines" OR that they say things like "Are you a 180year-old virgin?" Did you remember Twilight here? No? Just me?
